## REMARKS.

**DIRECTORY REMARKS.**—Of all the Directories yet published of East Saginaw, the Saginaw Valley and of the State, in years past have been as follows. We have taken much pains in collecting these works and give them a brief notice:

The first one was George W. Hawes' Michigan State Gazetteer and Business Directory for the year 1860, which gave the names of only business firms, a brief item of East Saginaw, devoting only six pages of matter to East Saginaw and sold for \$3.50

The second one was by George W. Howes', in 1861, dated 1865, title Michigan State Gazetteer, Shippers Guide and Business Directory containing only four pages of matter.

The third was a Saginaw Valley Directory issued by Messrs. Thomas and Gallatien for 1866-7, in which was an elaborate history of this Valley, which won for it merit, and far more valuable than all preceding works.

The fourth was Mr. H. H. Chapin's Michigan State Gazetteer, issued for 1867-8. This one was devoted to business firms only, together with sketches of the various places represented.

The fifth one was Holland and Thorp's East Saginaw and Saginaw City Directory for 1868-9. This one was the first exclusive "City Directory" ever published for the above named cities.

The sixth was an East Saginaw and Saginaw City Directory, issued for 1870-1, by R. L. Dudley, by far superior to the preceding one, and the second exclusive City Directory, and which we believe gave general satisfaction.

The seventh was one by Messrs. Burch and Hamilton, a Gazetteer of the D. & M. and F. & P. M. R. R's. for 1870-1, which proved a valuable work of its kind, devoting much space to not only the names of business firms, but to the general interests of that portion of the country through which these lines passed.

The eighth is the present offering by C. Exera Brown & Co., residents of East Saginaw, and it is our design of issuing annually this work in the entire interest of the present and prospective future of all the Valley Cities and Villages. Office, No. 113 Genesee street.

## PERSONAL.

---

**PILE DRIVING, DOCK AND BRIDGE BUILDING.**—The many friends in the city and valley, among whom the writer is proud to be numbered, desires to call attention to an active business man in the personage of Walter Fitzgerald, who carries on an extensive business in Pile driving, Dock and Bridge building, also agent for "Buel's Iron Bridge." He is always prepared and generally gets the larger contracts for pile driving and bridge building here and throughout the North-west.

Mr. Fitzgerald came to the Saginaw Valley in 1863, and by his upright dealings, promptness and close attention to business has established for himself a reputation of merit and the confidence of the entire community. He owns and operates upwards of five steam and land Pile Drivers, gives employment to from thirty to forty men, with a capacity of setting from one hundred and fifty to two hundred piles per day. He has built nearly all of the most prominent docks along our river, at present engaged driving the piles for the Genesee Street Bridge, which stands a monument of evidence and an acknowledgment of skillful workmanship.

Mr. F. has only to refer to the leading lumbermen and mill owners for his responsibility and ability to undertake and complete anything in his line, and is at all times ready to furnish material or otherwise.

We bespeak for him all; and long may he live among us.

## FIRE DEPARTMENT.

EAST SAGINAW FIRE DEPARTMENT.—Byron B. Buckhout, Chief Engineer—Members of "Valley City" Steam Fire Engine Company: George Major, Foreman; Jesse A. Burdick, Engineer; Richard Page, Fireman; John M. Weaver, engine driver; Wm. Webb, hose driver; Andrew J. Wilson, James P. Walsh, Wm. E. Pringle, George Dobson, John Mulholand and Hubert Burk, hosemen. Wm. Gleason and John Wilson, pipemen.

The Engine house is located on the corner of Cass and German streets, a large two story brick building with an observatory or tower overlooking the whole city and for miles around, also a place for drying the hose.

The second story is fitted up and occupied as the residence of J. A. Burdick, the Engineer.

The Fire Engine was manufactured expressly for East Saginaw and purchased Nov. 1st 1865, at the works of H. C. Silsby & Co., Seneca Falls, N. Y., since when it has been rebuilt by putting in a new boiler and with adding other improvements (August, 1870.)

The number of fires visited from Nov. 1st, 1870, to Dec. 1st, 1871—seventy-one.

This organization was effected in 1865, having twelve members. This is the only Fire engine owned by the city. See elsewhere for the introduction of Water Works the Holly system.

## POST OFFICE.

POST OFFICE.—Located on the South-east corner Cass and Genesee streets; George Lockley, post master; W. G. Gage, deputy p. m. Office open from 6:30 A. M. to 8:00 P. M. Sundays from 9 to 10 A. M.

Domestic and International money orders and registered letters. Office open from 7 A. M. to 7 P. M. week days.

The following will show the business of the office for 1871. Numbers of letters received about 375,000; amount of money orders sold during the year about \$48,655.00; amount of money orders paid about \$43,060.00. Of British money orders sold since October, 1871, to Jan. 1st, 1872 \$579.90. A large amount of the British matter is received at this office daily, aggregating many times during the year.

As an indication showing the business of the valley cities, we give below an abstract of the returns of the several post offices. The following table shows the business of the office at East Saginaw and Bay City for the third and last quarter of 1871:

### THIRD QUARTER.

	<i>Bay City.</i>	<i>East Saginaw.</i>
Value of stamps sold,	\$ 1,621.50	\$ 2,347.89
Value of envelopes sold,	359.27	529.33
Amount received for box rent,	283.75	320.75
Total,	\$ 2,264.61	\$ 3,197.67

### FOURTH QUARTER.

Value of stamps sold,	\$ 1,835.32	\$ 2,783.02
Value of envelopes sold,	674.02	799.75
Amount received for box rent,	275.00	432.50
Total,	\$ 2,785.24	\$ 4,015.27
Increase of business,	\$ 520.63	\$ 817.30

We have not the corresponding figures for Saginaw City, but those below give the amount of money orders paid in the fourth quarter of 1871:

East Saginaw,	\$ 10,856.02
Saginaw City,	4,783.64
Bay City,	4,714.58

Showing that in the money order business at least, East Saginaw did more business than Bay City and Saginaw City together.

The Standing Committees of the Association have not as yet been appointed for the year, but will be found on the large cards of the Association in their rooms, in the churches, hotels, etc.

Anything that comes under the work of the Association will be thankfully attended to if made known to the officers of the Association.

## HOME OF THE FRIENDLESS.

---

THE EAST SAGINAW HOME FOR THE FRIENDLESS AND INDUSTRIAL SCHOOL.—Was organized Wednesday, March 30th, 1870. This benevolent Association incorporated under and pursuant to the provisions of an Act of the Legislature of the State of Michigan, entitled "An Act for the Incorporation of Industrial and other Charitable Schools," approved March 27th, 1867.

The election of officers occurs the first Wednesday in April, 1870.

Officers for the ensuing year 1872 are as follows: Mrs. C. K. Robinson, Pres't; Mrs. J. F. Driggs, Vice Pres't; Mrs. J. Hayden, Sec'y; Mrs. B. B. Gordon, Treas.; Mrs. Geo. W. Morley, Cor. Sec'y.

The Board of Managers consists of twenty ladies. The board of counsel consists of twelve of the most prominent gentlemen of this place, with standing committees of three ladies on matron and teachers, five ladies as reference committee and six ladies on house and supply committee. Mrs. Nellie A. Crapo, Matron. Number of persons at the "Home" Jan. 1st, 1872, are fifteen.

The success and prosperity of this institution is good and most encouraging to the public, and the management is most creditably commending itself to a generous community and a feeling of deep interest and influence is felt at home and abroad.

## ITEMS.

---

The cost of Census taking for 1870 in the United States amount to \$ 3,287,660.

---

A Medical Society or Association have an organization in Saginaw City.

---

A Lumberman's Association is in force here, but the desired information is not available or at hand.

---

A Boom Company have also an organization of which we have no note to give them the desiring showing would like.

---

A Machinist and Blacksmith's Union No. 1 of Michigan, have an organization here, but the desired information is wanting to give it appropriate notice.

---

A Lyceum is held at A. C. Parson's College Hall occasionally, whether there exists a real organization is more than is known at the Directory office.

---

BRADY HILL CEMETERY.—Bounded on the north by German Colons road and on the east by Jefferson street. The number of intermenty from Jan. 1st to Nov. 28th, 1871 are 173. Wm. T. Arnold, Sexton.

---

The Skating Rink which was erected in July, 1870 at an expenditure of \$ 18,500, and of whom Chas. Lee is Pres't and principal owner does a nice business in the winter seasons, and no doubt will continue in future, for it is a popular and attractive place and continuously being made so each winter season under its present management. Located on the n. e. corner s. Washington and Williams sts.

---

A Relief Fund or an Assolation of recent date for the relief of the sufferers from the late fires in Chicago and also in Michigan have rooms at 100 Genesee street; W. J. Bartow, Pres't. The cash receipts up to the first of January amount to about \$ 14,000. The distribution of various kinds of domestle supplies amount to about \$ 12,000, aside from a large amount of household furniture, clothing and miscellaneous goods received and distributed not accounted for.

## PAVEMENT.

PAVEMENT.—5,550 feet, or nearly one and a quarter miles of Street Pavement has been laid in East Saginaw. Two blocks on Washington and nine blocks on Genesee streets.

The first pavement laid down cost a trifle over two dollars per square yard, while the last portion cost one dollar and eighty-three cents per square yard.

Genesee street pavement from Franklin to Water cost \$9,170.00. The last portion laid on Genesee street cost about \$10,000. Total cost of all the pavement laid down will probably not exceed \$60,000.

## SALT.

SALT.—The amount of Salt manufactured during the month of October, 1871, as shown, was 94,728 barrels, of which

East Saginaw district is credited with	12,013 barrels.
South Saginaw district,	10,844 "
Saginaw City district,	14,439 "
Carrolton district,	9,178 "
Zilwaukie district,	14,414 "
Portsmouth and Bay district,	14,142 "
Bay and Banks district,	16,071 "
Salzburg and Wenona district,	3,317 "
Mt. Clemens,	300 "

Total, 94,728 "

From this month's manufacture as a basis over 1,146,736 barrels are manufactured each year and additional Salt Blocks are going up each year in the above named places, increasing even these facilities and figures.

## FISHERIES.

FISHERIES.—The Fisheries of the Saginaw River and Bay is claimed to be second only to Newfoundland. A very large capital is invested by capitalists as also a great number of fishermen in the trade, while even as yet, it is generally conceded that this pursuit is only in its infancy.

The estimate of White Fish and Trout put up for the market for 1871 is not far from 15,000 packages.

This trade of putting up Fish was first made a business in 1864-5.

POPULATION.—The population of East Saginaw in 1850 was 251; in 1865 was 8000; in 1868 was 14,261 as shown by the late Directories and elsewhere.

## WATER WORKS.

**WATER WORKS.**—Nov. 6th, 1871, a special election was held in East Saginaw for the purpose of voting for an appropriation of \$75,000, to put up a permanent and substantial system of Water Works to supply all the demands of her citizens.

The vote stood as follows :

	<i>Total Vote.</i>	<i>Yes.</i>	<i>No.</i>	<i>Blank.</i>	<i>Majority.</i>
First Ward,	53	30	23	0	7
Second Ward,	68	60	8	0	60
Third Ward,	163	147	11	5	131
Fourth Ward,	68	57	10	1	46
Fifth Ward,	50	37	13	0	24
Sixth Ward,	42	35	7	0	28
	<hr/> 444	<hr/> 366	<hr/> 72	<hr/> 6	<hr/> 296

The above returns are filed in the City Clerk's office.

Here we see a universal public disposition toward enterprise and progress and a desire for safety.

If the Holly System of Water Works are adopted in preference to all others, then the public may feel assured they have not only the best system known but a system which with good management will yield a handsome revenue to the city and be self sustaining.

Sixty-five fires have occurred within the city limits during the first ten month of 1870, destroying property to the value of \$83,850. By including the fires of South Saginaw and Florence, makes a total loss by fire within the past year of \$138,850.

Water street also has two blocks of pavement between Tuscola and German streets.

A complete system of Water Works "Holly system," not Chicago system, would have no doubt saved this destruction of property, and curtailed the expenses of the fire department more than one half.

## TELEGRAPH.

**TELEGRAPH OFFICE.**—In October, 1861, the Western Union Telegraph Company established an office here and which was opened by the present manager, Mr. A. Ferguson; previous to this, however, there was a line to this place and an office, known as the Snow Line, communicating at Detroit with the Speed Line; the office business probably amounted to but little until the W. U. T. Co. took hold of it, since when it has been remunerative to the Company as also an untold benefit to the city and public.

The following information obtained of the manager shows the receipts of this office for 1871 to be \$10,947.20 of messages sent, and received for the year were \$22,482.

## TRIBUTARIES

On a straight line the following are tributaries in miles:

South Saginaw (or Sallua originally) adjoins the city limits on the south opposite this, west, and across the Saginaw river is Saginaw City nearly two miles west of south from East Saginaw. Across the river and opposite East Saginaw is Florence where is located the passenger and freight houses of the J. L. & S. R. R. Co., known by some as the East Saginaw depot of that road. Quite a settlement and several salt blocks. A new hotel has just been completed by S. H. Webster; stores and other places of business is carried on there, together with a street Railway extending from East Saginaw, crossing over the bridge through to Saginaw City.

Carrollton is the next below Florence on the west bank of the Saginaw river, about one mile, and, still below this, is Zilwaukie, one mile further down; then comes Salzburg about eleven miles below Florence; then comes Wenona, twelve miles distant; then Bangor township adjoining, is the village of Banks across the river and opposite is Essexville and Dolsenville, then two miles south and west lies Bay City, adjoining which on the south is Portsmouth which is ten and one half miles north of East Saginaw, the two latter places being located at the terminus of the F. & P. M. Railway, Bay City division.

Bridgeport on the line of the F. & P. & M. R. W. six miles southeast; Tuscola sixteen miles s. e., Vassar eighteen miles s. of e., Watrousville twenty-one miles s. e., Birch Run fourteen miles s. e. on the line of the F. & P. M. R. W., Tittabawassee ten and one half miles n. w., and Swan Creek nine miles s. w.

St. Charles, a small village s. of Saginaw City on the J. L. & S. R. R. is about thirteen miles distant.

To several of the above points stages are run daily, while others are reached by railroads and by private conveyance.

Here places to the number of twenty which are feeders and tributary to "preeminent" East Saginaw.

Good plank roads characterizes the valley highways in all directions.

The aim of this Directory is to show the names of heads of families omitting the names of their children except in cases where they approach manhood or womanhood, for themselves, as also includes single persons residents, who have no families, at least here, boarding, etc., etc. The aim of all general City Directories.

Those names spelled with A number 153, B 641, C 432, D 319, E 123, F 214, G 255, H 429, I 24, J 119, K 245, L 245, M 635, N 135, O 114, P 247, Q 11, R 263, S 628, T 130, U 9, V 53, W 397, X 0, Y 22, Z 27, residents of East Saginaw. Total 5,870 these figures multiplied by 2½ persons to each name in the Directory, to include the children, and give an approximate of our population, gives us 14,675 or if multiplied by 3, the nearer or more accustomed figure, gives us 17,610 inhabitants.

The Census of 1870 credits us with having only 11,340 inhabitants.

is necessary in order to treat successfully those local forms of them so frequently met with, and to distinguish one from the other. The same is true of

**RHEUMATISM.**

Rheumatic *Ophthalmia* is a frequent and distressing disease of the Eye, involving often the whole system, and requiring energetic and scientific treatment.

**IRITIS.**

Inflammation of the *Iris* is often caused by *Syphilis* is rapidly destructive sometimes destroying the Eye in forty-eight hours, or sooner, in its worst form, this also is connected with Rheumatism in some instances.

**CORNEITIS.**

Inflammation of the Cornea exists in various forms, and from different causes. *Scrofula* in young children is often the origin. In adults often from other and more destructive causes, this is always dangerous to vision.

**OPHTHALMIA, NEONATORUM.**

May be *purulent* or *Catarrhal*, which attacks new born Infants, often destroying the cornea by ulceration, and of course all useful vision, causes may exist with the mother or with the nurse, but should never be neglected for a day.

**Vapor Medicated Baths, Medicated Inhalations, Acupuncture and Medicated Oils**

Are employed in addition to the usual mode of treatment, and from the relief is often obtained when all other remedies have failed.

The Howe Sewing Machine is the oldest manufactured. It is first class in every particular; is warranted to be just as represented and does not need any puffing to force it upon the market, but stands upon its own merits. They are adapted to all kinds of work, and range in price from \$65 to \$250. Call at our newly furnished rooms, No. 109 Genesee st., before purchasing elsewhere.

# MUNN & CO., MANUFACTURERS OF GANG, CIRCULAR & UPRIGHT MILLS,

## Parallel Edgers, Engines, Heaters, Pumps, Globe Valves, Cearing of all sizes, &c.

They will contract to build mills throughout and furnish Irons, Bolting, Belting, Saws, Log and Lumber Cars, Rail Track, Improved Turn-table Irons, Track, Cars, &c. All work warranted and finished in the best style, for modest prices.

The above cut represents the Parallel Edger. This Edger has no equal in the market, for efficiency, durability and economy in making lumber. It makes strips and scantling of any desired width; will edge the widest plank, and has a reversible motion. By pressing lightly on a lever the plank or board will come back with high speed to the operator. It will edge, in a good and merchantable manner, 45,000 to 80,000 feet per day. This machine has a heavy iron frame in which all the machinery is placed. The extension tables have iron legs and maple rollers to pass the lumber on.

**DESCRIPTION OF EDGER.**—A, is the driving pulley, 10 in. diam., 11 in. face; B, saws 20 in. diam., 2 gauge; C, parallel rods to support pressure rolls; D, rock shaft; E, iron arm for outside bearing to steel arbor; F F, arms to pressure rolls; G, pressure rolls; M & N, belt wheels to feed rollers; L, feed rollers, 3½ in. diam. and fluted; K, wood rollers to pass the lumber over. Steel arbor, 2½ in. diameter, 7 feet 2 in. over all, with two to four saws as desired. Width of table 4 ft. 9 in.; length 28 ft. over all.

There are many other good qualities in this machine too numerous to mention here. It is made complete, ready for the belts, and any mill man can have it running in a few hours after it is in the mill. For further particulars about any of the above mentioned machines, inquire of

*We take pleasure in introducing to Lumber Manufacturers and others, our New Improved*  
**Patent Gang Lath & Bolting Machine.**

**WHICH IS THE BEST OF ITS KIND IN THE COUNTRY FOR THE FOLLOWING REASONS:**

*First.—It is the most perfect Machine of the sort that is made. Second.—It will make more and better Lath in the same space of time than any other machine and with less expense. Third.—Being all Steel and Iron it is more durable and less liable to get out of order. Fourth.—It has no return motion. Every bolt is finished as it goes through, thereby saving one half the time lost by other machines. Fifth.—It can in a few minutes be changed to a complete Stave Machine. Sixth.—All the feed works are run by one belt, and with a lever this motion is at the will of the operator.*

*We use 14 inch saws; steel arbors, 12½ inches in diameter; drive pulley planed. It is much shorter than other styles of this kind of machine. Our Bolter is also made with an iron frame, and automatic in its movements. All the operator has to do is to place the slab or bolt on the table and keep it to the gauge, or in other words it is a self-feeder when only one or two saws are used in short it is a most complete machine. One seen is to fully understand the mode of operating it, and it will recommend itself to all who may witness it. For further particulars inquire of*
